Figures 7a-7d illustrate the difference between web-safe colors and non web-safe colors as viewed on two different computer platforms, e.g., the Macintosh and Windows operating systems, respectively. Figures 7a and ~~7b~~ 7c depict certain colors as they are displayed within the Macintosh environment, whereas Figures ~~7c~~ 7b and 7d depict those same colors as displayed in the Windows environment. As can be seen, there are 40 non web-safe colors in Figures 7a and ~~7c~~ 7b that appear differently in the Macintosh environment (Fig. 7a) from those in the Windows environment (Fig. ~~7c~~ 7b). However, with the web-safe colors of Figures ~~7b~~ 7c and 7d, there is no perceptible variation in appearance across the Macintosh and Windows platforms.
